Rt. Hon. Justin Trudeau, Prime Minister
Hon. Jonathan Wilkinson, Minister of Environment and Climate Change
House of Commons
Ottawa, ON K1A 0A6

RE: Environmental Impact Assessments (EIAs) for nuclear reactors in Canada

Dear Prime Minister Trudeau and Minister Wilkinson:

We feel strongly that no Environmental Impact Assessment (EIA) exemptions for small modular nuclear reactors (SMNRs) be permitted in Canada, as has been requested by the Canadian Environmental Law Association (CLEA) and the Canadian Association of Physicians for the Environment (CAPE). Furthermore, we request that thorough EIAs be carried out for all nuclear reactor proposals in Canada.

Sincerely,

David Thompson and Samuel Arnold
for the Coalition for Responsible Energy Development in New Brunswick
